— Thursday, 1st January — Very mild, cloudy,
 a great many people at Church — I am much
 better, but, still, not well, enough, to venture out —
 he took Colchicum, this morning — bedpers
 were, very early, at 1/2 past twelve — a great
 number of people attended, — this afternoon
 Mr le Cure went to St George — he only returns
 to-morrow — appearance, of a continuation, of
 mild weather — the Moon, looks dim — the
 water, seems, to rise — so much the better — the
 Great Mill — requires it — I have felt very
 little a low spirited all day — this morning, early,
 dear Willy & Caro came to ask their Father, to bless
 them — & to give us, an affectionate kiss — dear
 children! — I was denied, that happiness — of being
 blessed by a dear Parent, this year — dearest Mother
 was not there — to bless me — how very much
 I feel the void! — the Collection of Books given
 to Willy & Caro, by Mr le Cure, their Father, ^{their} Uncle,
 and myself, is very beautiful — and truly
 interesting — they were much pleased with
 them —

Friday 2nd Jan. Still cloudy weather - not very cold - only 4 degrees this morning - Henri continues to improve slowly - the wounds are good - Mr. le Curé returned from Henryville before luncheon - Willy took a long drive, as far as the Martindale Lot - he says, the roads are beautiful - Francis was out a great deal to-day - we have not seen the sun, since a number of days -

Saturday 3rd Jan. It snowed for a short time - the weather mild, but benumbing - feeling chilly, a disagreeable Henri is better - Francis, all night again - he goes about, as usual - not much water for the Grist Mill - dear Caro^{was} commenced to work a very pretty cushion, on rail-road carvay - she is doing it, very nicely - I had, a kind affectionate note, from dear Loto, this morning - when? shall we enjoy, the light, of a bright sun? it seems to me, an age since, we have seen it come out - always cloudy weather - dear Willy Received, this morning - may he always be good and pious -

Sunday 4th Jan. It snowed all the morning - a great many people at church - Henri came to Mass - a walk home from church - he feels better - after supper, Willy & Caro took a long walk - the weather was so pleasant - the sun came out, it was quite renovating - I have a head-ache little inclined, to scribble, this evening - the roads are good - just enough, snow - and that, is all -

Monday 5th Jan - Intensely cold, all day - after breakfast, Henri went to Bedford, to Preside the Council - he found it very cold - I hope he will not feel, any head effects, from his long sojourn - Willy has been out driving & riding to-day, notwithstanding, the great cold - the wind, was so piercing - Caro had a slight head-ache, this afternoon - there were two sun dogs, visible all day - no prognostics, of a severe storm - this evening - at 1/2 past seven o'clock - Henry & Ishishier arrived - we were truly happy to see them - it was quite an agreeable surprise, as we did not expect them before the latter end of the week - Henry came on, from Montreal, with his own horse - waited, at St. Johns, for Ishishier,

who, left town, later than they did, and took the train at St Lambert, at $4\frac{1}{2}$ past four P.M. - they found the roads, as far as St Alexandre's, very fine - and, then, rather full - Lucy sent Caro a most magnificent Boubonniere, as a ^{new} year's gift, to which a beautiful book - Henry brought me a superb vase of his own, handy work in pottery - very well made - I got a touchy petit "Châlet Suisse" - a little bijou - he also, gave with a Caro very handsome books - they were, quite magnificent in their offerings - I feel particularly happy to see them - dear boys! - a lovely bright moon - 15 degrees cold to-night -

Withy & Caro are so delighted to see Henry & Fob —
after recapers — they went up to the Cure's room,
to play - cards — the weather continues to be intensely
cold —

Wednesday 7th Jan — a continuation of most intense cold —
a strong West wind — freezing to a degree — it is awful —
we keep all the stoves, red hot — the only way of keeping
the house comfortable — Withy & Henry went out to
take a drive, a short one, — I imprudently allowed
Caro to drive down, to the Halls, for the Mail —
fortunately, she was ^{so} very warmly, clad, she
did not feel, the intense cold — I regretted she
had ventured out — dear Caro, finished, working
her cushion — it is uncommonly pretty —
Henry, continues to improve, daily — he, of course, keeps
indoors, during this fearful cold weather —
he cannot bear the cold, this winter —

Thursday 8th Jan — The cold, still, more severe
to-day — 20 degrees — accompanied by a strong West wind —
I thought, I would have perished, this morning, when
going to have my nap — this afternoon the wind abated —

so short, and again, during their stay with us,
they had such awful cold weather, they were
deprived of going about - they must have had
a most cold day, for travelling - Henry had
his servant with him, who drove - Henry's
trot out is very handsome, very comfortable -
they have had, a long drive home - as, they
were returning by Chombley - I shall be
happy, when I hear of their having reached, without
taking cold - Henri is much better, in health -
God! grant it may last - it is very cold - a
strong wind from the S. W - it continues to snow -

great abundance — Mr le Curé went on a sick
call, in the grand time — Mr Perry came, to give
Caro her music lesson — Therri passed a bad
night — he is still very hoarse — no doubt, that
hoarseness, proceeds, from the gout on the

lung - I feel anxious - When, will he cease to suffer?
his hand and elbow are better - the boarsness, is not
yet passed away - I wish it were - I do feel
so miserable - so low spirited! What,? would

numerously, attended, by the Parents, who brought
their children - even, their babies, to be blest -
& to be admitted to this noble, affectionate, association,
it was truly interesting, to see & hear all those
dear innocent infants & young children -
being present at this beautiful ceremony -
Mefpise Dupuis pronounced a most interesting
parental, affectionate discourse - addressing
himself, first, to the children, and, then to
the Parents - on their duty, to the precious
charge, bestowed, upon them, in the proper
way, of bringing up, their young family -
he spoke to the heart - dear babies, they did not
cry much - they seemed, so puzzled & amazed, at

all, they saw and heard - I never witnessed, such
a feeling ceremony - the blessing, given by M^r Dupuis,
was very solemn - M^r Dupuis & M^r Aubain

the roads, are pretty good - notwithstanding,
the immense quantity of snow - Wadeau
commenced to make the wax candles, for Church

The made 14 lbs of white wax tapers to-day —

Wednesday 4th Feb — During the night, it blew a perfect hurricane from the North — this morning, the drifting and accumulation of the snow, was fearful — a part, of the platform, was again, blocked up — this afternoon, the wind & snow having abated, several hands, set to, and shovelled the platform clear, also the path, leading to Church — weather mild — a few drops of rain, fell — unfortunately, it did not last — the sun came out, bright — and we had, a glorious sun-set — Henri is better from his hand and elbow — but seems to fear, an attack, in his foot — God! grant, it may not, be so — a very unusual, event, here, is, that, this morning, there was a thin ice covering our delicious spring — it has never, happened, since we, are here — a great proof — of the water, being exceedingly low, every where — it is so, to a fearful degree —

rain in the night - a thaw
Thursday 5th February - a very great snow storm
and commoner mild weather - it is heavy wet
snow - and so very much of it - Hanni is much
the same as yesterday - no gout, in the foot -
as he feared yesterday - our people, are all
the time busy shovelling away the snow -
notwithstanding, the wet snow, Caro drove down
to the Falls with her brother - the roads, very
full, some carots - we all hope, for a thaw -
so, as to bring down, the immense quantity of
snow, and to supply water, every where -

great thaw
Friday 6th Feb - Spring weather - a great thaw - and
it is truly welcome - after all the intense cold, we
had this weather - it rained during the night
accompanied by a strong southerly wind - it is
not to be told, how, much the snow, had dimi-
nished - it was quite surprising, this morning
to see the head of the fence, even a part of it
above the accumulated heaps, all about us -
the plat-form to church, quite dry, as in
summer - it is perfectly delightful, what a
happy change - and so sudden - if, this mild
weather, continues, it will prove a boon, to

every body - I particularly rejoice at it, on
account of the grist mill - there is even
now, water, to grind - to - day - There is
much better - I hope and pray, he may
continue to improve in health - poor
Martyr! it is time - he should, be released
from pain - Caro has taken a slight cold -
the fine weather, will soon make it disappear -
dear Willy is always in the full enjoyment of
perfect health - a lovely evening, a soft
mellow moon - appearance of fine weather -

such an extraordinary thaw - no roads
of any kind - all the snow gone - to the
exception of the drifted snow, next to the
fences - a deluge, all opposite the gate, and
even, on a part, of the platform, it covered
with deep water - this afternoon, when
going to church, Caro slipped on the fence
to reach the stream - I forded it, having
long indies, ^{rubber} boots - we have never witnessed
such a thaw - the fields quite bare,

the garden a pashe, like, in spring — the grass
in some parts, looking green — the gravel
walk, quite recovered — it looks exactly, like
April weather — the mail, came on, with a
single horse sleigh — the roads, completely
broken up — the gutters, are running, freely,
a strong South wind, all day — at mid day,
11 degrees heat — it looks like rain to-night —
there will be, now, no more, ery, for
the want of water — after this deluge —

Henri so a so — not, as I would wish, to see
him — Francis goes out, as usual — he is all
right again — I have a head ache —

Cure gone to the bridge in a waggon
Sunday 8th Feb. — a fearful freshet — the water risen
to a great height — this morning a bright warm
sun, a strong South wind — no more snow —
fields quite bare — no roads — few people at
church — Henri went to Mass — Caro and I
returned from church, with difficulty — walking
against the wind — we could hardly stand, it,
this afternoon, rain by torrents — spring
temperature — after supper, Mr le Cure went
to the bridge in a waggon on a sick call —
what extraordinary weather — if, it continues, what,

is to become of us, no roads & such a
dreadful deluge every where — this morning
the wind is west — it may perhaps, turn
to cold — — —

The ice below the dam, broken & gone down.

Monday 9th Feb a fine bright day — but
cold — it froze hard, during the night —
a thin coating of snow — the water,
remains, to a fearful height — the ice
below ~~above~~ the dam — broken up &
gone down, to the May lot — it has shoved
there, to a great height — the whole of the
interval is flooded — the lower part
of the garden, is quite overflowed — the
spring, is on a level with the walks —
all, in deep water — What an awful frost!
Francis has a stack of hay, surrounded
with water — a perfect deluge! Henri went
to Wolfford to the Agricultural meeting — he
says, the roads, are awful — there is no
slighting, or, going on wheels, with safety —
the stage passed on wheels — that is a small
light waggon, constituted, the stage, to — keep
the wind from the N. E. — all day —

James and Harriette - Stage on wheels

Tuesday, 10th Feb - awful boisterous weather - although the sun, came out for a few moments - it blew a perfect gale, the whole day - wind, N. E. it was almost, impossible, to walk against the wind - Henri walked out, as far as the Mill house - it snowed this afternoon, that is, it came on, by bourrasques - it was dreadful weather, we were much surprised to see James and dear Harriette arrive by the stage on wheels - they say, when they left Montreal, this morning, it was fair and pleasant - this tempest, rose whilst, they were en route - fortunately, they came on without, suffering, very much, from the inclemency of the weather - to night - most intensely cold - blowing a perfect hurricane - the wind is like ice - we are so happy to see our friends - they have been long expected - the water is still very very high - Henri sent Corsey to town to - Ray - on business -

Wednesday 11th Feb - Intensely cold all day - the
water has gone down - Hein did not venture
out to - day - This morning I found it, very
cold - Nanette & Caro remained in
doors - busied themselves embroidering, &
conversing - This evening they played Cards -
I love Nanette, she is a dear girl -
Weather still very cold to - night 19 degrees -

Thursday 12th Feb - a continuation of very cold weather
a strong South wind - most disagreeable
weather - Hein feels rather gouty - I sincerely
hope - it will wear away without an attack -
^{the} weather has been, so cold & disagreeable
since Nanette is here - that she has not
taken any exercise - to the exception of going
to Church, this morning - This morning 20 degrees
cold - to - night it looks like snow or rain -
the South wind makes itself heard, with a
great noise - Capsy, returned to - day, by the
stage - awful roads - the Beer Man
had a break down in the grand line - he has
put up here, until the morning -

Friday, 13th February - This morning a perfect
hurricane, returning, from church - the wind
blew, with such violence - that I could hardly
walk, against it - poor Henri is again laid
up, with a severe attack of the gout, in both
shoulders, and the right hand - I cannot
express, what I feel, to see him, again in such
awful pain - it is, heart-rending - he
a poor martyr - I fear he will have a
night of agony - the paroxysms are
already, making him suffer, very much -
poor Henri; is it possible, that, he is doomed
to suffer always! I am quite upset, to see him,
again, in constant pain - this afternoon
a few drops of rain fell - it then became sleety -
finally, it cleared up - the temperature, mild -
the water, has gone down, a great deal -
the river below the dam, quite free - like
in summer - as far as the May Lot - men
beyond it, I believe - poor Harriet, has a
dull time of it - no roads for driving
unpleasant walking - and worst of all -
Henri ill - poor child; she will have made
a visit en route - - beset, still very
mild, this evening - -

Saturday 14th Feb - What an awful night, poor
Therri passed; the excruciating pain, he
endured, is not, to be told - it was most
dreadful - he had the gout in both his
shoulders - in his right hand - ⁱⁿ his
thrice - poor poor Martyre! I really feel
very anxious - he is looking very ill -
he will not hear of my sending for
Medical advice - he says, 'What is the
use, to repeat the same thing over!'
ah, what would I give, to be near a Dr -

I have never felt so wretched, so miserable
as I do - it breaks my heart, to see him, in
such constant pain - the weather has been
lovely, quite spring like - I wisher arrived
at 10 o'clock P. M. - Simpson's Boy - drove him
up - the winds but - of course, nothing
but waggons are now in use - the
garden a paradise, ~~look~~ like in summer -
what extraordinary weather - I very much
fear, poor Therri, had a bad night before
him - the paroxysms in his hand - are
dreadful - I feel so low spirited -

God! grant him, some relief -
My sweet dear Caro, is fifteen years old, to-day
dearest child! my heart overflows, with all, I feel
for her - and could say -

I wisher arrived -

nightingales, were heard to-day -

Sunday 15th Feb Rain - it blew a perfect gale
all night - I never heard any thing like it - such
an awful hurican; Henri is a shade better -
he did not eat, much - last night - I sincerely
hope, he will sleep to-night - it is raining
by torrents this evening - This morning, Nanette
and Caro went to church, in the cab - what
extraordinary weather for the season -

Monday 16th Feb - Cloudy and very mild - quite spring
weather - not a particle of snow - Henri is better,
he slept, last night - he feels quieter - he is so
thin, so altered - it makes me very anxious -
I do long for the fine warm weather, that
only, will bring him round - I thank you, I will
feel, when I will see him, a happy return, of
health - God! grant he may continue better, and
get strength - Mr le Cure left after breakfast
for Montreal - he is to take the afternoon train -
Nanette, Caro & I - have enjoyed themselves, walking
about the park - it is, so much like April
weather - the grass green in many parts -
I have a headache - Willy put his canoe in the
river, and took a cruising - rain by torrents
this evening - what is to become of us? -

Tuesday, 7th Feb - A continuation of springy weather
it is so extraordinary, not to see, a particle, of
snow, in the Lawn - all, looks around us,
like the Month of April - Francis says, if, this
very mild temperature, continues, that, in
a day or two - the ground, will be fit to plough
that is, if, any one, chose to do so -
how very, unusual, in this country! - I fear
that, we shall still, have very severe frost
and cold - in one sense, I should rather, wish,
it would be so - our ice houses, are not yet
filled - what a serious affair, it would be,
if - I got no ice - for next summer -

Harri is rather better, he gets on very slowly -
he got up before breakfast - he retired at
7 o'clock P. M. - his health, is very delicate -
this unfortunate gout, fairly shatters him to
pieces - - Harriette, Caro and I took a
long walk - John & Willy joined the party -
it is still very mild to - night - a beautiful
clear sky - this morning it was foggy -

Wednesday 18th Feb. This morning cloudy, damp disagreeable, foggy - in the afternoon, the sun came out - bright & beautiful - and much colder, than yesterday - we had a glorious sun set - indicating fine weather, a little frost - will be of service - Henri continues to get on slowly - his hand is better - he got up - after lunch - the grist mill thronged with work - water still very high - I am in hopes, we will succeed, in filling the ice houses -

Thursday 19th Feb. - Quite a change! this morning, the ground quite covered over, with snow - it snowed during the night - its not having, yet frozen, very hard - the roads, are not pleasant either for the sleigh or waggon - although, the sleigh is preferred - appearance of cold for some times to - day, it was a gloomy disagreeable winter's day - Henri is much the same - 7 degrees cold to - night - these winter roads, are much needed, yet I rejoice to have a return, of a short winter - Henri, in turning his arm, rather abruptly, dislocated his shoulder, out of joint - although, it often happens, still, I always feel very nervous about it -

a strong south wind -

Thursday 26th Feb. routine, to - morrow - this afternoon, Willy
went down to Whitney's, on several errands -

1858

Friday, ²⁴ January 1858. This New Year, has
set in, in the midst of a heavy fall
of snow - the immense quantity of snow,
and its depth, is something unusual, in this
part of the country - we almost, fancy
ourselves, in Liberia - Henri, is a shade
better, his head, although, not very painful,
is, yet, swollen & inflamed, much burnt
by the application, of Calcium - a great
many people, at church, notwithstanding,
the heavy winds, in such deep snow -

Friday 20th August - I have not written a line
 in my Journal, since the 2nd April -
 dear Caro kindly, did so for me - and
 when we left to travel - it remained, untouched -
 what a long illness I have had! I need not,
 give the details, that, Caro has done -
 when we left on the 18th July for Havre -
du Loup - I was still, too unwell, to attempt,
 any thing of the kind - but, I was so
 bent, on going, that, we left, with the
 full hope - of reaching our destination - on
 the ~~following~~ ensuing Wednesday - we slept
 at St John, there, I suffered a slight pain -
 the Dr was very ill - unable to come to
 see me - I am convinced, had, he come,
 I would not have been allowed, to go further -
 the next morning, reached Montreal,
 saw a number of my Friends - took the
 St Boat in the afternoon, for Quebec -
 arrived there, the next morning - went up
 to Russell's Hotel - remained there, until
 Wednesday afternoon - having lost all
 hope - of going to the Saguenay - a
 fearful N. E. Wind had arisen, in the
 morning - it was quite impossible, that
 I could venture, the cold intense -

Notwithstanding, the storm - still, I felt anxious,
to go - I was so ^{with the idea} ~~struck~~, that, it was there, and
^{above,} ~~there~~, that, I would recover my health - Henri
was so happy, I could not go further - he
finding ^{me} much too delicate - for a voyage, of
the kind - we returned to Montreal on the
Wednesday - there, I was very ill - laid up
with a third Inflammation - Dr. Nelsona his
son Alfred - attended me - they certainly, were
most successful - their attention, unbounded -
I had the dear nuns of La Providence, to tend me
their unswerving services - night & day - I have
kept the names of all those, dear interesting
Sisters of Charity. I resided at James's -
I was there, three weeks - how truly happy, I felt
when the Dr gave me my Congé - I left
Montreal on the 11th inst - slept at St. John's - and
reached my own dear home - on the
12th August - after an absence of three weeks
and four days - what an affectionate
welcome, I had! it went to my heart! -
I found my dear Willy looking pale and
debile - he had been, indisposed - Dr. Brigham
attended him very well - poor Francis
so happy to see me back - how thankful
I was - to have been spared - to all that

surround me. Since my return - my health
is much improved - Henri had a slight attack of
gout in his hands it commenced on the 14th - it
lasted untill last Tuesday - he is now quite
free from it - he left for town - this morning
Julien, went with him - my poor Henri!
What anxiety & fatigue, - he has undergone,
since, last 3rd April! his devotedness &
affectionate attention, is not to be told - it
can only be felt - God, grant him health -
Froisher came last Sunday - for the
Grand Fest of the Assumption of the
Blessed virgin Mary - it was a most
brilliant Fest - when I arrived at church,
the kind greetings, I received from every
body - quite upset me & then again -
when I heard, the sweet sounds, of my
beautiful little organ, and all the splendour
of the Choir - I gave way to all I felt -
Since yesterday it is quite cold - I drive
out - very often - Willy is gone on an errand,
this morning - Mr Le Cure' gone to St George
Nadeau left last Tuesday for St Johns -
he returns next week - the garden - is
beautiful - a quantity of melons - it seems
to me - the Forest, is looking more

and more beautiful - the foliage - so
luxuriant so rich - on Wednesday last
we had much rain, thunder & hail - it
has quite changed the pleasant temperature
we had last week - The crops - are
looking well - I believe, some intend
to commence harvesting, next week -
dear Caro, enjoys perfect health - so
happy to be home again - she is
delighted with her new horse - he canters
very nicely - it feels autumn, like to-day -

The names of my dear favorite Sisters of Charity
who kindly sat up at night & tended me
their services during the day - when
so ill - in Montreal - July 1858 - during three
long weeks -

Sœur Philippe - -

Sœur Lucie -

Sœur Olier du St Sacrement -

Sœur Cecile -

Sœur Marie du Crucifix -

Sœur Marie du Mont-Carmel -
